

Guiding Questions to Describe the **Measure Activity**:

For Learning Measures

- **What** is the assessment activity that students completed or performed?
- **Why** is the assessment activity appropriately matched to this outcome?
- **Where/when** were these assessments completed? (if course-embedded, identify the course/semester/year)
- **What** approach was taken to evaluate student work products or performances?

For Non-Learning Measures

- **What** is the measure or indicator used to assess this outcome?
- **Why** is this measure or indicator appropriately matched to this outcome?
- **How** was the data collected?
- **Where/when** was the data collected?

Fields marked with * are required.
